Internship

Social Intern	June 2024 – July 2024
Saambhavi NGO	Delhi, India

- Helped me, how to work under a professional setting and develop habits of teamwork and leadership.
- Did various plantation drives and assisted various people to plant saplings.
- Understanding empathy and caring nature, as we visited an elementary school for unprivileged kids.
- Helped digitalizing the donations slips by doing multiple data entries for the NGO they collected throughout the months.

Projects

Tech Dreams Store – An Inventory Management System

Link: https://github.com/LakshyaUpadhyay136/TechDreamsStore---An-Inventory-Management-System

- **Technologies Used** – Python & MySQL
- Developed a comprehensive "Tech Dreams Store Management System" utilizing Python and MySQL to streamline customer, sales, and inventory management processes. The system includes user and admin login functionalities, a customer management interface, a billing module, and an organized inventory system with various product categories, including mostly computer peripherals. Integrated dynamic functionalities like product addition, modification, deletion, and inventory visualization with real-time pie charts. Automated database creation and table setup, ensuring smooth installation and operation. This project demonstrates a robust approach to managing large-scale retail inventory and customer relations with enhanced security and efficient workflow.

Skills

Programming Languages: C, C++, Python, JavaScript   **Web Technologies**: HTML, CSS
Soft Skills: Communication, Leadership and Teamwork   **Miscellaneous**: MySQL, GitHub, Adobe Photoshop

Work Experience

Experience in creating visually captivating YouTube thumbnails tailored to gaming audiences. Successfully collaborated on a commission basis, meeting tight deadlines and adhering to specific brand styles to help clients attract viewers and increase click-through rates.
